

Customer Information Pack

Dear potential or existing customer,

We currently offer a 'one stop shop' approach to facilitate a total waste management service for our customers and as we own our own infrastructure and our own competencies, we have total control of all aspects and activities from 'cradle to grave'. We will solely work in partnership with you to provide a dedicated service to meet your demands, expectations and needs from initial conception, system implementation, provision of containers and skips, transport movement, collection and delivery, legal compliance and records.

The senior management team (SMT) have a wealth of industry experience and expertise with **both** non-hazardous and hazardous wastes including confidential waste, sampling and analysis and industrial services incorporating industrial cleaning, high-pressure water jetting and confined space entry with or without breathing apparatus (BA).

We hold extensive permits and exemptions at the following locations which allows us to accommodate and facilitate the removal, transport, treatment, processing and disposal of **all waste** other than explosives. This allows you to have one point of contact for all of your waste and reduces the administrative resource burden necessary by you under your obligation to verify that, as a producer, your waste is collected by a registered carrier and taken to an approved transfer, treatment and disposal destination having the necessary EWC codes.

Lingfield Way	Palm Court	Tofts Road West
Yarm Road Businss Park	Morton Park Way	Tofts Farm Industrial Estate
Darlington	Darlington	Hartlepool
County Durham	County Durham	TS25 2BQ
DL1 4PZ	DL1 4PT	

This pack includes those compliance documents to provide you with such assurance.

Our service is fully compliant with statutory and industry regulations, with a heavy focus upon recycling, reclamation and treatment. We have been operating from our head office and recycling facility on Yarm Road business park since 2009 quickly adding Palm Court to our recycling facilities and recently have modernized and upgraded a treatment facility at Hartlepool as part of our portfolio of sites in line with our strategic plan and business contingency plan to mitigate risk associated with business continuity thus ensuring that services can continue regardless of challenge.

We have a range of equipment subject to service and replacement to maintain efficiency and effectiveness and once again to provide assurance of continuity and reaction to short notice requests and emergencies from our customers. Our equipment and infrastructure used to cater for all of your waste and recycling requirements includes the following:

- Hazardous waste and non-hazardous waste tankers.
- Liquid Ring tankers.
- Curtainside vehicles.
- Flatbed vehicles and Luton vans.
- Roll on roll/roll off vehicles.
- Skip vehicles.
- Skips, waste sfaes and waste containment / receptacles.
- High pressure jetting equipment and associated vehicles.
- Laboratories, analytical equipment and on-site chemists.
- Treatment, storage and processing tanks.
- Balers and shredders.

We have successfully gained accreditations in the following

- BS EN ISO14001 environmental standard
- BS EN ISO 45001 health and safety standard
- BS EN ISO 9001 Quality standard
- CHAS Contractors health and safety standard
- Achilles UDVB
- Safecontractor
- RoSPA Gold
- Water Jetting Association

An waste review and evaluation can be arranged for you free of charge. In the site evaluation we will advise you on the most cost effective and best environmental option available for waste minimization, recycling and disposal adopting the legal waste hierarchy in accordance with the Waste (England and Wales) regulations and best available techniques (BAT) in compliance with the Environment Agency directives. A clearly defined auditable trail is created for all wastes that are disposed of by Total Recycling Services Limited. In addition to duty of care waste transfer notes, weighbridge tickets and consignment notes we also provide our customers with customised

spreadsheets and charts. We can also use our expertise to ensure that your company meets environmental specifics and objectives consistent with recognized International standards such as ISO14001 and RC14001

If you would like to make an enquiry about using our services or arrange a free site evaluation please do not hesitate to contact us initially using one of the following.
